

ROBOT RUMBLE

Friday, September 27, 2019
The Frontier
Research Triangle Park, NC
9:30 am – 2:00 pm

Are you looking for a fun, engaging and educational team building experience for your company or department? The Robot Rumble is it! The corporate team building experience will challenge 10 company teams to build the best robot using the LEGO EV3 Mindstorm kit for a run at the FIRST LEGO League competition table. With the goal of raising awareness and funds for FIRST North Carolina and the North Carolina Technology Association, this fun event will bring the tech sector together to engage in friendly competition and learn more about the experiences available for North Carolina's youth.

Corporate teams will be made up of 6-8 company representatives and will be coached by current FIRST Robotics mentors.
