"Show Me" Poster Digital Guidelines

What is the "Show Me" Poster?

- A team poster that shares what you learned during the Cargo Connect season!
- A space to describe your team journey throughout team meetings/ sessions.
- You can use words, drawings, and photos on your poster. Be creative and have fun!

Explore

- What did students learn?
- How did they learn this information?
- What research was done to support your obstacle course design?

Create & Test

- Describe your team model. How did you include your Explore set?
- What did you program and why?
- How did you test your model and program?

Share

- What do you want to share about your team?
- How did you share what you learned?
- Who did you share it with?

How can we make a digital "Show Me" poster?

While teams could make a physical poster, it will be difficult to share at a Remote Event. Here are some guidelines to get you started...

- A digital "Show Me" poster should still share your teams journey and what you learned: Remember… Explore, Create & Test, and Share!
- You can still use text, drawings, and photos… you can also include short video clips!
- Here are a few platforms your team can use to create a digital poster:

Platform	Ages	Details	Web Link (Example from last season)
Prezi	13+ to create an account, any age to use	● Free Version ● Collaborative	https://www.prezi.com/ EXAMPLE
Canva	Any (Adult supervision recommended under 13)	● Free Version ● Collaborative	https://www.canva.com/ EXAMPLE
Visme	13+ to create an account, any age to use	● Free Version (but limited)	https://www.visme.co/ EXAMPLE
Powerpoint or Google Slides	Any	● Requires Microsoft Powerpoint or Google account ● Google Slides are collaborative	N/A EXAMPLE

Restrictions: While there is not a limit to what can be on your "Poster", we encourage teams to limit any prepared presentation to 5 minutes.
